The screenshot shows the IPVanish VPN application interface on a Mac. The top status bar indicates the user is **Connected** with a green checkmark icon. It displays the current IP address as **129.11.101.12** and the location as **Phoenix, AZ, United States**. A **Disconnect from Phoenix, AZ, United States** button with a toggle switch is visible on the right.

The main interface has three tabs: **General**, **Connection** (which is selected), and **DNS**. The **Connection** tab contains the following settings:

- Connection**
  - Protocol: **L2TP** (dropdown menu)
  - Automatically reconnect
- IP Address**
  - Change IP address periodically
  - Change Interval: **1 hour** (dropdown menu)
- Kill Switch**
  - Kill network if VPN Connection is lost

Two red arrows are present: one pointing down to the **Settings** icon in the left sidebar, and another pointing up to the **Connection** tab.
